CURE FOR SNAKE POISONING -The Governor-General of India has received a communication from Baron von Muller, an eminent scientific authority of Melbourne, announcing that he has discovered the real cause and effec ive cure of anake poisoning

Hitherto the mode in which the venom of ser-pents produced fatal effects has been a mystery. The el-borate series of experiments carried out by the Australian savant bare, he states, not only renthe Australian savant have, he tates, not only rendered it cear how the poison operates is producing death, but have pointed out a remedy which, who applied in time, will save the life of the patient. According to Herr von Muller the venom of sorpents does not destroy the titsue of the body, but has merely a dynamic effect, suspending the action of the motor and vasomotor nerve centres. This discovery at once indicated that the proper kind of antidote would be semething that would "stimulete and increase the functional activity of the onerve centres."

"stimulate and increase the functional activity of the onerve contras."

The remedy is supplied by strychnine, which is directly antagonistic in its action to snake poison. Herr von Muller has applied strychnine upon a large number of persons by ten by tight snake and venomous serpents, and with invariable success. The way in which he employs it is to insert ten to twenty minims of the drug under the skin of the patient, and repest the operation every fifteen minutes until slight muscular spasms are produced, these being an unfailing sign that the patient is out of danger. Large doses of strychnine may be injected into the bleed of a person who has been bitten without producing signry until it has completely neutralized the effect of the enake poicompletely neutraliz d the effect of the snake poi-

The importance of this discovery, if confirmed, can hardly be overrated. In India where 30,000 persons are killed by poisonous snakes every year, Baren von Mulla's communication has naturally been received with the deepest interest.—London

A MYSTE AIOUS BOMBARDMENT.- A remarkable state of affairs exists at the house of Jacob Cunningham, on McKim's c eek, Pleasants county, W. Va. For two or three weeks past the occupants of the hours, which stands in an open field, have been annoyed by stones, from the size of a per to an orange, being thrown against the house, breaking the glass and icopardizing the lives of the immates. This occurred both during the day and at night, This occurred both during the day and at hight, and, despite all efforts at detection, even to the posting of guards fifty yards from the house, the nuisance has increased. There is now secredly a whole pane of glass left in the house. One stone, which flew through a window Saturday, and almost buried itself in the wall on the other side of the room, weighed four pounds. Cutside the house a hole corresponding in size and shape with the stone was found. Canningbam has offered a reward of \$50 for a solution of the problem which has made his house automable. his house untenable.
